● ABOUT ME

Full-stack software developer with a focus on JavaScript/TypeScript and React, plus experience in Flutter mobile apps and back-end development - MySQL, PHP, .NET and Firebase, AWS S3. Portfolio highlights include a 3rd place hackathon project and a custom voice-command package built with Whisper for my bachelor's thesis. Passionate about solving challenging technical problems and contributing to products that make a real impact.

● WORK EXPERIENCE

MOBILE APPLICATION DEVELOPER – SIA "CHILI" (CHILI LABS) – 05/09/2022 – 04/04/2023 – RĪGA, LATVIA

- Doubled revenue for [CrochetApp](#) by adding high-impact features: push notifications, image uploads (via AWS S3), onboarding flows, multiple subscription CTAs with remote config and A/B Testing in Firebase improving user retention and engagement.
- Built robust admin tools for content managers: editable material tables, validation logic (ensuring consistency & preventing user mistakes).
- Updated materials list from static JSON file in app to a database managed in admin panel. Syncing only the changed values to app for smaller data usage and faster loading times.
- Upgraded app to latest Flutter and dependency versions, identified & fixed breaking changes.
- Rebuilt front-end components for [Bondora](#) using Flutter, including custom graph visualizations, dynamic currency input responsive to user locale/formats, and multiple detail views (account switcher, statements, etc.), improving UI consistency and usability.
- Handled the full mobile app lifecycle: published and managed app store / play store releases and beta builds via TestFlight, tracked analytics, managed release tasks, collaborated with QA, designers, made and ran unit tests or test scenarios.
- Helped developers fix bugs in [LTAB Octa](#)

E-COMMERCE WEB DEVELOPER – SIA "WONDERLAND MEDIA" (SCANDIWEB) – 19/05/2019 – 29/06/2020 – RĪGA, LATVIA

- Built reusable React components and WYSIWYG admin panel editable widgets for enterprise e-commerce sites ([Technodom](#) and [Sophie Conran](#)), enabling the owner to update layouts without developer intervention.
- Implemented product detail, comparison, favorites and cart views. Delivered end-to-end promo code functionality including MySQL schema updates and back-end integration with Magento through GraphQL API calls.
- Contributed to migration from a .NET full-stack app to a .NET back-end and React front-end ([Cervera](#)), implementing front-end components and creating GraphQL API methods.
- Developed statistics components (graphs and bars) for Karmia
- Used Docker in all projects for easier and consistent set-up in multiple environments.
- Collaborated with product managers, designers, QA and other developers. Wrote Jira tickets and made task estimates, followed best coding practices, used automated tests with Git/CI workflows, wrote clear commit messages to maintain delivery quality.
- Helped other developers by doing Code Reviews, QA and helping fix errors.

● EDUCATION AND TRAINING

09/08/2020 – 19/06/2024

BACHELOR'S DEGREE IN COMPUTER SCIENCE - SOFTWARE ENGINEERING Latvijas Universitāte

Address Raiņa Bulvāris 19 | **Website** www.lu.lv | **Field of study** Software and applications development and analysis

31/08/2016 – 30/06/2020

SECONDARY VOCATIONAL EDUCATION - PROGRAMMING TECHNICIAN Rīgas Valsts Tehnikums

Address Krišjāņa Valdemāra iela 1C | **Website** <https://www.rvt.lv/>

● LANGUAGE SKILLS

Mother tongue(s): **LATVIAN**
